Ohio | Small Business Development Centers

The **Urban Green & Sustainability Forum**

Join industry experts, entrepreneurs and thought leaders from around the nation as we demystify the emerging green economy, sustainability, and discuss market trends, job creation, skill enhancement and entrepreneurship.

Topics Include:

- What is the Green Economy and what it means to you
- How does a commitment to Sustainability transform your community and business
- Global, National and Local Market and Social Trends
- Green Investments and Jobs
- Understanding the Green Clusters and Associated Training
- Competency requirements and certifications
- Entrepreneurism and Green Economy

Green Segments to be discussed:

Solar Power, Wind Farms, Building Retrofitting, Smart Grid Cluster, Advanced Biofuels, BioMass, and Urban Sustainability
